3. Cancel hand out motor in PR-24, every driver drive by own motor  
Its big difference between hand out motor and CAHOZA motor, the system what we use now is grow old - its looks artificially limited competition and lot of years I see people don't want be hand out motor zone. The other option is to save money.

+++++ YES / NO +++++  
5 20

4. Confirm semi Finals(4min) in ES-32, F1-32 and ES-24, best 8 go to Final (5min)  
I think we should drive more, because I see a lot of people is very difficult learn track and also we get more rubber on track surface that is more closer track condition like World Championship.

+++++ YES / NO +++++
